Our QMS has been certified by ABS QE towards ISO: 9001:2008.

Our QMS has incorporated and successfully implemented the requirements of:

- ISO/IEC 17020: 2012.
- Res. MSC 349 (92). (RO CODE)

We are working to up grade our QMS to conform ISO 9001:2015.

Since 2012 we have been included in the High Performance list of RO's within the Tokyo MOU. **World Wide PSC detention rate: 0.96%**

OMCS CLASS

Overseas Marine Certification Services

WBMC RISK ASSESSMENT:

Development of a documented guideline for risk assessment in the context of the Ballast Water Management Convention (BWMC).

SAFETY REGULATIONS FOR VESSELS UNDER 500 GT OR PLEASURE CRAFTS

With modern softwares like Tribon and Foran and cheaper machines, production drawings are increasingly being done in design offices. So material sorting and identification, shop floor design etc are yet to catch up in small shipyards to derive full benefits of the modern practices.

DESIGN OF WORKFLOW IN SMALL SHIPYARDS
